

TVRA Tour & Tech Talk

COVENANT HEALTH PROTON CENTER

6450 Provision Cares Way - Knoxville

SATURDAY, AUGUST 8
9:00 - 10:30 AM

FREE

WHY PROTON THERAPY?

- Unlike conventional X-ray radiation, proton therapy delivers high doses of radiation directly to a tumor, sparing nearby healthy tissue and critical organs.
- This type of targeted therapy delivers gentler treatments with reduced side effects, secondary cancers, and fewer hospitalizations while offering the best short and long-term outcomes.

HOSTS AND PRESENTERS

- **DR. CHESTER RAMSEY**, is Chief Medical Physicist for Covenant Health in Knoxville and Director one of the region's largest radiation oncology programs. He also serves as Adjunct Professor in the CAMPEP-accredited graduate program at UT.
- **DR. SAMANTHA HEDRICK, PhD, DABR**, is Director of Medical Physics at the Thompson Proton Center in Knoxville, specializing in pencil beam scanning treatment, planning, scripting, and safety.

MAX - 20 Last day to sign up is August 2nd

EVENT COORDINATOR: Chris Jamison - chris_jamison@juno.com
