

# Tennessee Valley Winery

Finest family-owned winery in Tennessee

Join some of your new villager friends for a tour and wine tasting of a local winery – right in our backyard!

Tennessee Valley Winery was established in November of 1984 and is one of the oldest operating wineries in East Tennessee. They offer a selection of up to twenty different varieties and produce around 80,000 bottles of wine per year as well as ship around the country. They not only provide a great range of drinks, but also offer a very nice environment where all guests are comfortable and well served.

They produce over twenty different types of wine including Cabernet Sauvignon, Chardonnay, and other traditional varieties. In addition, we produce several wines from French hybrids as well as Native American grapes such as Concord and Muscadine. They also craft several fruit wines throughout the year including blackberry, strawberry, peach, and cherry.
