

New Villagers Flotilla to Chilhowee Dam Wednesday September 9th 11:00 to 4:30

\$15 per person

Ever wonder where the water in Tellico Lake comes from? Let's go find out!!

This flotilla will take you upstream (basically southeast) to the headwaters of Tellico Lake which is the outlet of Chilhowee Lake. The trip will take about 1 ½ hours each way through some of the most striking scenery on the lake. Once we are beyond Fort Loudon State Park, there's nary a house to be seen.

We will meet at the Yacht Club to board the waiting boats (docks directly behind the Yacht Club closest to the center of the lake). Once we've all boarded, we will take off for Chilhowee Dam which is approximately 24 miles from the Yacht Club.

You will need to bring your own food and drinks and enjoy lunch along the way. We really won't be spending much time at the dam, but some might want to test the 65 degree water. On the way back to the Yacht Club, we will stop for raft-off at one of the coves. So, bring you swimsuits, towels, tubes or rafts.

Fee is \$15 per person (goes to the boat captains for gas). Register online at tellicolife.org.

Limit – 40 passengers (depending on the number of boats we get). Last day for registration or refund: August 30th
