Septuagenarian Althea Witlin has a 3,000 piece jigsaw puzzle in her large collection that she's never worked on and she has less than a day to finish it. Poor health has forced her to move in with her younger sister - without taking her beloved puzzles with her. How can she possibly give up her favorite pastime for the rest of her life? But when a buyer for her house shows up, his mutual love of puzzles convinces him to stay and help her complete *The Puzzle with the Piazza* before her sister arrives the next day to move her out.
