**[www.tellicocommunityplayhouse.org](http://www.tellicocommunityplayhouse.org)**

### **OVERVIEW**

***A Red Plaid Shirt*** is a heart-warming comedy focusing on retirement, that important life-stage which brings new experiences and self-discovery. Two friends navigate this unfamiliar territory with the help of their wives. All they know is that one chapter of their lives is over, and the characters are unsure of their next steps. The play tips its hat to the stars of those classic sitcoms: Ralph and Ed, Lucy and Ricky, Rob and Laura.

## **CHARACTERS**

All are early to late 60's

**Marty** – A recently retired High School English teacher. “Book Smart” but not especially handy around the house. At a loss regarding what he will do with the rest of his life.

**Deb** – Marty’s wife, also retired. Has a more realistic attitude towards life in general, especially in regards to her husband and their future.

**Fred Baxter** – Long-time friend of Marty and Deb, Gladys's husband. A recently retired accountant. Has chosen hypochondria as his retirement focus.

**Gladys Baxter** – Long-time friend of Marty and Deb, Fred’s wife. A retired nurse whose retirement dream is to “See the World” with her husband.
